

THE LEDGER'S PROPHECIES FULFILLED.

McKinley's Election Has Restored Confidence and
Given a Big Boom to Business.

"Advance Agent of Prosperity."

THE LEDGER was insistent throughout the late cam-
paign that the election of MCKINLEY meant the restoration of
Confidence and the immediate resumption of Manufacturing
and Commercial Business throughout the country.

There were those who contended that the very opposite
would be the case.

It is useless now to argue the question; it is settled by
the results;—and that our readers may see who was right THE
LEDGER will give, from day to day, a partial list of the indus-
tries that are reviving under the assurance that the incoming
Administration will be friendly to American interests.

THE LAYING OF RAILS ON THE GOLDEN CIRCLE RAILROAD IN THE CRIPPLE CREEK MINING DISTRICT WAS HAGUN. S. T. SMITH, PRESIDENT OF THE FLORENCE AND CRIPPLE CREEK RAILROAD, IS IN CHARGE, AND IT IS REPORTED THAT HE HAS FLOATED BONDS THERE FOR THE CONSTRUCTION OF NOT ONLY THE GOLDEN CIRCLE, BUT ALSO OF THE FLORENCE THROUGH RAILROAD, WHICH IS TO RUN FROM FLORENCE TO THE SILVER CLIFF DISTRICT.

Three thousand unemployed have been given work at Syracuse, N. Y.

At Toledo, O., the Snell Bicycle Works have added 400 men and are now running full time. The Lozier Bicycle Works, which opened up with a partial force some time ago, have doubled their hands. The Milburn Wagon Works have largely increased their force of employees. The business houses are sending their full complement of drummers out.

One thousand one hundred more men were employed to work on the construction of the K. C., P. & G. Railroad in Arkansas.

At Lowell, Mass., the woolen and cotton mills of the Ipswich Corporation, which have been shut down for some time, will start on full time early next week. Employment will be given to about 1,000 hands.

The Barney & Smith Car Works will begin operations at once with a force of 2,000 men at Dayton, O.

Every bank at Sioux City reports increased deposits of cash.

At Springfield, Mass., the Spaulding & Pepper Manufacturing Company has started up its factory after a few weeks' shut-down, pending the result of the election. The Company has a large number of orders conditional upon the Republican victory.

At Canton, Ill., the extensive implement works of the Parlin & Orendorf Company resumed work in all departments. They will immediately start on all their traveling men.

The Milwaukee Harvester Works has employed 300 additional men. Two hundred more will be added within a month. Railway officers report a great rush for mileage books by traveling agents.

The Iron Mountain Railroad shops at North Little Rock, Ark., which have been running five days a week on short force several months, resumed full time with regular force.

The furnaces at Hubbard and Lowell, Wis., were lighted. The large steel plant resumed operations and several other mills resumed today.

One of Chattanooga's savings banks demonstrated its confidence in McKinley's victory early yesterday morning.

"We will back our confidence in the accuracy of the election reports," said the Cashier, "and from the opening until the closing of the bank will pay all checks presented in gold." As all the city banks had been refusing to pay gold for weeks, the action of the bank was a convincing argument to doubters.

HOUSTON, MICH.
Great Republican celebrations are being held throughout the iron and copper district and will be continued during the week. McKinley's election undoubtedly means the employment of over 10,000 idle miners in the upper peninsula alone before next spring.

KANSAS CITY, MO.
"We will put 1,500 more men on the construction of the Kansas City, Pittsburgh and Gulf Railroad way at once," said President A. E. Sullivan of that road yesterday. "We began laying track south of Mea, Ark., yesterday at the rate of three-fourths of a mile a day. We received cablegrams from Europe buying our securities this morning."

DETROIT, MICH.
Savings bank deposits have heavily increased the past two days, and the banks are now willing to pay gold in small amounts.

CANTON, ILL.
The large and extensive implement works of the Parlin & Orendorf Company of this city yesterday resumed work in all departments. They will immediately start out on all their traveling men.

BIRMINGHAM, ALA.
Three big mills in this city, employing 3,000 men, have resumed as a result of McKinley's election.

SPRINGFIELD, MASS.
The Spaulding & Pepper Manufacturing Company has started up its factory in Chicopee, after a few weeks' shutdown, pending the result of the election. The Company had a large number of orders conditional upon the Republican victory.

life was to run from San Diego to the ports of China and Japan, but since then an agent of the company has come to the coast and opened negotiations to make San Francisco the terminus on this coast.

TO CURB A COLD IN ONE DAY.
Take Aspirin from Quinine Tablets. All druggists refund the money if it fails to cure. No.

The State Treasurer is preparing to pay to the schoolteachers of the state the remainder of the sum due them October 1st. The Treasurer speaks plainly as to the necessity of an extra session of the Legislature to provide revenue.

KANSAS CITY, MO.
"We will put 1,500 more men on the construction of the Kansas City, Pittsburgh and Gulf Railroad way at once," said President A. E. Sullivan of that road yesterday. "We began laying track south of Mea, Ark., yesterday at the rate of three-fourths of a mile a day. We received cablegrams from Europe buying our securities this morning."

DETROIT, MICH.
Savings bank deposits have heavily increased the past two days, and the banks are now willing to pay gold in small amounts.

BOLD ROBBERY.

Masked Men Blind and Gag the Night Watchman

Of the Star Brewing Co., Cleveland, O., and Blow the Safe.

The robbers secured \$5,000 and a collection of rare coins valued at \$1,500. After looting the safe they took everything of value in the office.

CLEVELAND, O., Nov. 13.—The most sensational and successful robbery that has occurred in this city for years was perpetrated at the works of the Star Brewing Company early Wednesday morning. Nightwatchman Louis Christiansen, was making his routine inspection of the building, when five masked men sprang out of the darkness. A fierce struggle ensued and weapons of all kinds were brought into use. The robbers were heavily armed, but refrained from using their guns in order to avoid noise. The watchman was finally overcome, bound and gagged and tied to a steam pipe. The robbers then broke open the office door and wrangled the safe with wet blankets. The combination handle was broken off and the safe blown to pieces with dynamite. After looting the safe of its contents and taking everything of value in the office the robbers departed. The helpless watchman managed to free himself after repeated struggles, and gave alarm.

Officers quickly arrived and made a thorough investigation. The robbers left no clue behind them, but in the opinion of the police that the crime was the work of professional safe blowers. The robbers secured \$5,000 in money and carried away a collection of rare coins belonging to C. A. Strangman valued at \$1,500. The robbery occurred in a densely populated, wealthy residence part of the city. Watchman Christiansen sustained three severe wounds as the result of his struggle with the men.

SECRET SERVICE.

Annual Report of Chief W. P. Hazen.—Concerning the material of the secret service, states that the counterfeiting of paper money has materially decreased during the past year. This can in part be accounted for by the large increase in circulation, some of which are most skillfully executed. He attributes the facility with which the public are deceived by raised notes to the frequent changes in the designs of the United States notes, which makes it almost impossible for the public to become familiar with the currency. It is also made plain, he adds, that the distinctive paper in use is so different from the criminal rather than a protection to the public, because of the fact that a note printed upon paper containing silk threads (as a number of the notes of the counterfeits) and all the raised notes are accepted in a majority of instances without hesitation, owing to the erroneous impression that the paper used by the government is manufactured by secret process and can not be imitated. He has also become convinced that the introduction of silk into the paper tends to lessen its wearing qualities and is therefore responsible to a degree for its short life.

The counterfeiting of gold and silver coins has been on the increase in all parts of the country. Some counterfeits of silver coins have appeared on the Pacific coast that are quite similar to the genuine, both in weight and fineness, and made from discs of excellent workmanship.

Meeting of the National Grange.—WASHINGTON, Nov. 13.—The thirtieth session of the National Grange convened Wednesday morning in the National hotel, 30 states being represented by 150 delegates. General Secretary John Trimble, of this city, and Wm. Saunders, superintendent of the agricultural department, gave the opening address. Mr. Saunders, in his speech, advocated the erection by the National Grange of a hall of agriculture in Washington. Worthy Master J. W. Brigham, of Ohio, responded to the address on behalf of the grange. Wednesday afternoon the worthy master delivered his address.

The South Close to South Dakota.—PITTSBURGH, S. D., Nov. 13.—Returns from Gregory county came in Wednesday afternoon. This county had been counted on to give Bryan 100 majority. It gave him only 4. It still looks as if the Bryan electors will carry the county by 95 or 90 votes. Lee, the populist, seems to be elected governor, while the rest of the republican state ticket seems to have pulled through. The legislature has a populist majority of 30. Senator Kyle has a decided lead and will probably succeed himself.

Watson's Letter of Acceptance.—ATLANTA, Ga., Nov. 13.—Thomas E. Watson's letter, accepting the vice-presidential nomination of the people's party, has at last been made public. It was written on October 14 last to Senator Marion Butler, chairman of the solicitation committee and manager of the populist party. The document would make seven columns of a newspaper.

Treasury Gold Reserve.—WASHINGTON, Nov. 13.—The treasury gold reserve at 10 o'clock Wednesday had increased to \$129,638,464. The net gain at New York for the day was \$10,000. The withdrawal at New York was \$7,100.

Appointed a Receiver.—WASHINGTON, Nov. 13.—Controller Estlin has been appointed receiver of the Marine National bank, of Duluth, Minn.

GEN. MILES

Makes His Annual Report to the Secretary of War.

WASHINGTON, Nov. 13.—In transmitting to the secretary of war the annual reports of the department commanders in connection with his own report upon the military operations of the past year, Gen. Nelson A. Miles, commanding the army, has also commended the discipline and personnel of the army.

Regarding the distribution of the army at important strategic points along the 6,000 miles of coast and at certain points along the 7,000 miles of national boundary, which is necessary to the security against a foreign foe and protection from Indians, Gen. Miles earnestly recommends that no consideration for the location of military posts be entertained except when they are called for by the military authorities and deemed absolutely essential for the national requirement.

Gen. Miles recommends that the enlisted strength of the army be fixed at one soldier to every 1,000 of population in a minimum of 100,000 and increased one soldier for every 1,000 of population. "The strength to be determined by the president of the United States and the military authorities and requirements of the nation."

He renews his previous recommendation that the United States army be organized on the basis of the Rocky mountains and one east be established for the accommodation of one regiment of cavalry each. Also the recommendation concerning the use of bicycles and motor wagons and the promotion of enlisted men who shall be found competent through the course of the grade of second lieutenant after five years' service.

Referring to coast defenses, Gen. Miles recommends that appropriations of last year for liberal appropriations for high power guns, mortars and other artillery necessities, and urges that appropriations for the work of ordnance, engineer and quartermaster's departments be made available during the coming year. Among items recommended are:

San Diego, Cal., \$500,000; San Francisco, \$600,000; mouth of the Columbia river, Oregon, \$500,000; Puget Sound, \$750,000.

GREAT BRITAIN

Not Ready to Recognize the Monroe Doctrine as International Law.—LONDON, Nov. 13.—The Globe, commenting upon the Venezuelan arbitration treaty, says it welcomes the agreement because it releases the United States from a future and dangerous obligation. The commission had reported adversely to Great Britain, the paper adds, President Cleveland would have been forced to attempt to force Great Britain to eat humble pie, with the result that if the Washington government had seen fit to enter the arbitration treaty, the developments of the United States would have been retarded for half a century. The Globe adds that "it must be clearly understood that the constitution of the new arbitration tribunal is not to establish a precedent, but to be a case of the dispute between the United States and the United Kingdom in North and South America, nor are we ready to recognize Monroe as an international law."

TERRIBLE FATE

Nitro-Glycerine Salesman Shot to Atom by Explosion.

MOONVILLE, W. Va., Nov. 13.—Louis Conn, a nitro-glycerine salesman, met with a terrible fate at Moonville, W. Va., on Wednesday afternoon, being blown to atoms by an explosion of the material he was carrying. Conn drove to the outskirts of town to get a gallon of nitro to be buried there. He used a pick to dig it out of the ground, and it is supposed the instrument came in contact with the can. The explosion was heard and seen by the townspeople, and caused great excitement. Conn's remains were scattered for 100 yards around and one foot was the largest piece found. In the burning can were four gallons of nitro, and at the report of the explosion the flames ran away, but strange to say, the jolting did not cause Conn to fall. A young man and sold glycerine to the oil men.

Contagious Disease in Havana.—WASHINGTON, Mich., Nov. 13.—Burgess, sanitary inspector of the marine hospital service, at Havana, Cuba, reports to Surgeon General Wyman, under date of October 31, that yellow fever and amallpox have increased during the week past. There were 900 deaths, caused by yellow fever, with 900 new cases; 95 were caused by amallpox, with 350 new cases. Sixty-nine of the 13 deaths from yellow fever were among Spanish soldiers in the military hospitals. Other places report similarly high rates of mortality.

Another Downy Ballot.—ATLANTA, Ga., Nov. 13.—The general assembly took another dummy ballot for United States senator Wednesday, each democratic delegation voting for a different name. The populist Lewis withdrew from the race which now practically narrows down to Gov. Atkinson, Capt. Howell and A. Clay.

Killed His Farmer Wife near Here.—ATLANTA, Ga., Nov. 13.—Samuel Welch, a farmer living near here, shot and killed his wife Wednesday morning and then committed suicide by shooting himself in the head. Welch and his wife had not lived happily together and she had left him and was living at the home of a brother.

Refers to the Pot Into Execution.—CONSTITUTIONAL, Nov. 13.—It has been announced officially that the authorities of various Turkish provinces have been instructed by the government to put into execution the reforming sultan.

The Philadelphia Glean to South America.—VALPARAISO, Nov. 13.—The United States flag ship Philadelphia, now in the dry dock at Valparaiso, is to be refitted and sent to South America, the objective points being Callao and Valparaiso.

GEN. GARCIA,

With a Large Rebel Force Captures the Town of Guasimaro.

Bridges Burned up, Culverts Burned and Railway Tracks Torn Up.

The Garrison, 150 soldiers and 35 Armed Citizens Surrendered to the Rebels. Church Towers Blown Up With Dynamite—War Material Captured.

KEY WEST, Fla., Nov. 13.—Passengers who arrived from Havana Wednesday night bring intelligence that the capture of Guasimaro was of more importance than first reported. When the news reached Havana it caused great excitement. It was partially printed, but was wired to Madrid and made a sensation. It is said it so stirred the people that they forced the government to oblige Weyler to take the field.

The steamer Julia, which arrived at Havana Sunday from Nuevitas, reports no communication with the city of Puerto Principe since the 31st. "Many bridges have been blown up, culverts burned and about seven kilometers of railway track torn up. Great anxiety prevails in Nuevitas regarding the fate of Puerto Principe. The steamer brought letters detailing the attack on Guasimaro. It appears that Gen. Calisto Garcia, with a large rebel force and two pieces of artillery, attacked the place on October 11. The next day he captured the trenches and destroyed ten forts surrounding the town.

The garrison, 150 soldiers and 35 armed citizens, surrendered, but were ordered released except quartermaster Magnus Moller, being a Cuban, attended the wounded. They were then sent to Puerto Principe under an escort. The officers were parole. Maj. Martinez, in command of the detachment, was wounded in the arm and died at the hospital as a result of amputation.

The citizens of the town were forced to aid the rebels destroy the trenches, houses, etc.

The church tower was blown up with dynamite. Much war material was captured. All steamers were sacked, owners made prisoners, and a ransom asked.

The so-called fusion of local political parties is a farce. It was all done by the Cuban Civil Guard. Under instructions of Weyler, forced the leaders of the parties to accept their resolution was taken the same day Weyler left for the field, who feared to leave behind troublesome elements. There is a great undercurrent of feeling against Weyler in Spanish circles. It is known he has been pushed to take the field. It is said he will fall in Venezuela. The Cuban press. The latter is reported strongly fortified in the mountains. Tuesday night Weyler escaped in the Gomor and Macao and news has arrived that he had an engagement with the rebel parties under Perillo delgado and Perillo Diaz. It is reported Weyler was forced to fall back. News also has been received that Gen. Munoz made another attack on the Rabi hills where Macao is supposed to be strongly entrenched. A fierce fight is said to have occurred but no details are known.

Great excitement prevails in Havana, not only on account of the above, but also because of news received from the United States regarding the capture of Cleveland's future attitude on the Cuban question.

A UNION DEPOSIT

To Cost \$500,000 to Be Erected at Des Moines, Ia.—Also Shops and a Freight Depot.

DES MOINES, Ia., Nov. 13.—The announcement was made Wednesday that as a result of the election a contract had been made between the Des Moines Union railroad on one hand and the Chicago Great Western & Western Chicago & Northwestern, Des Moines Northern & Chicago, Milwaukee & St. Paul roads, by which the local company is to build a \$500,000 union depot on Cherry street, between Fifth and Seventh, next spring.

The Des Moines Union will also build extensive shops, and the Great Western will build a half freight depot to cost \$50,000.

An Active Winter's Work

DES MOINES, Mich., Nov. 13.—All indications point to an active winter's work at the Palms. Fifty men are at work preparing room for stock piles. The old Colby mine will resume operation about the 15th with about 800 men; the Tilden with about 350 men and 350 more December 1. The Sunday Lake & Waisanen has started with 100 men. Business men are placing their orders for stock; all indications are better than for the last four years.

Post Pay Problem

DES MOINES, Ill., Nov. 13.—The mangled body of Mrs. William Taylor was found on the Burlington railway tracks near here Wednesday morning.
